

MiniGenius – UI/UX Design System & Screens

This document contains: - UI Style Guide - App Icon Guidelines - Home Screen Wireframe - Game Select Screen Wireframe - Text Logo (Wordmark) Guidelines - Sticker Pack Design System

1. UI Style Guide

Typography

- **Title Font:** Rounded, playful sans-serif (Fredoka / Nunito)
- **Body Font:** Clean sans-serif (Poppins / Quicksand)
- **Font Rules:**
 - Child-friendly curves
 - Medium weight for labels
 - High legibility at small sizes

Color Palette

- **Primary Blue:** #4DB7FF
- **Yellow Accent:** #FFE45C
- **Mint Green:** #5ADBB5
- **White:** #FFFFFF
- **Dark Text:** #222222

Button Styles

- Rounded corners (12–24px)
- Vibrant fill color (Blue or Yellow)
- Soft inner shadow
- Press animation: Scale (1.05x)
- Icons: Bold, rounded, simple

Icon Style

- Flat vector
 - Thick rounded outline
 - Bright, pastel palette
 - Minimal details, high clarity
-

2. App Icon Guidelines

Shape

- Square with soft rounded corners
- 10–15% padding around brain graphic

Composition

- Cartoon brain centered
- Subtle smile visible even at 48×48
- Blue background gradient or flat

Restrictions

- No text inside icon
 - No complex shadows
 - No tiny details
-

3. Home Screen – Wireframe

Layout Overview

- **Top:** MiniGenius logo
- **Middle:** Grid of 6 game icons (2 × 3)
- **Bottom Navigation:** Home | Stickers | Achievements | Settings

Visual Style

- Soft blue gradient background
 - Icons with bounce-on-hover effect
 - Tiny floating stars animation
-

4. Game Select Screen – Wireframe

Structure

- Title: Game Name (e.g., "Memory Cards")
- Levels Grid: 10 circular levels
- Locked = grey with lock icon
- Unlocked = colored with stars

- Big yellow Start button
 - Back icon top-left
-

5. MiniGenius Wordmark (Text Logo)

Design Rules

- "Mini" in Blue (#4DB7FF)
- "Genius" in Yellow (#FFE45C)
- Rounded playful font
- Dot on the "i" replaced with a tiny smiling brain

Usage

- Splash Screen
 - App Store Screenshots
 - Website Header
-

6. Sticker Pack – Design System

Sticker Categories

Brain Characters

- Happy Brain
- Thinking Brain
- Winner Brain

Achievement Stickers

- "Level Up!"
- "Super Smart!"
- "Mini Genius!"

Reward Icons

- Stars 
- Trophies 
- Colorful Badges 

Style Rules

- Thick outline

- Pastel bright colors
- Soft shading
- Large expressive faces
- Works at 128px–512px sizes

Usage

- Reward animations
 - Daily gift screen
 - Sticker album
-

7. Full User Flow (UX Flow)

App Launch → Home

1. **Splash Screen**
2. Shows MiniGenius logo
3. 1.5s animation
4. **Home Screen**
5. 6 game icons
6. Bottom navigation

Home → Game Select

1. User taps a game icon
2. Opens **Game Select Screen**
3. Shows 10 levels
4. Locked/Unlocked states

Game Select → Gameplay

1. User selects level
2. Gameplay screen appears
3. Timer
4. Instruction bubble
5. Elements of the chosen game

Gameplay → Results

1. User finishes level
2. Result screen:
3. Stars earned
4. Reward animation

5. Buttons: Retry / Next Level / Home

Rewards System

- After every 3 completed levels → unlocks a sticker
- Daily login → Daily Gift popup
- Sticker added to **Sticker Album**

Progress

- Achievements updated live
 - Parent mode tracks playtime (future update)
-

8. Wireframe Set (Text-Based Blueprints)

Splash Screen

- Center: MiniGenius logo
- Bottom: "Powered by MiniGenius Studio"
- Background: Gradient blue → mint

Home Screen

```
-----
|      MiniGenius      |
|-----|
| (Game 1) (Game 2)   |
| (Game 3) (Game 4)   |
| (Game 5) (Game 6)   |
|-----|
| Home | Stickers | Ach. | Settings |
|-----|
```

Game Select

```
-----
| < Memory Cards      |
|-----|
| 0 0 0 0 0           |
| 0 0 0 0 0           |
| (Levels 1-10)       |
|-----|
```

```
|          START          |
|-----|
```

Gameplay (Example: Memory Cards)

```
-----
| Level 3    ★ 120 pts |
|-----|
| [Card][Card][Card]  |
| [Card][Card][Card]  |
| [Card][Card][Card]  |
|-----|
```

Result Screen

```
-----
|  ★★☆ Level Passed |
| +1 Sticker / +10 pts |
|-----|
| Retry | Next | Home |
|-----|
```

Sticker Album

```
-----
|      Sticker Album      |
|-----|
| [Happy Brain] [Locked] |
| [Trophy]      [Star]   |
|-----|
```

9. Flutter Architecture & Folder Structure

Recommended Folder Structure

```
lib/
  main.dart
  core/
    theme/
```

```
widgets/  
data/  
  models/  
  repositories/  
features/  
  home/  
    ui/  
    bloc/  
  games/  
    memory_cards/  
      ui/  
      logic/  
      data/  
    find_difference/  
    shape_matcher/  
  stickers/  
  achievements/  
services/  
  local_storage/  
  ads/
```

Why this structure?

- Easy to add new mini-games
- Clear separation of UI, logic, and data
- Scalable for future updates

10. Ready-to-Use Prompts for UI Generation (AI)

Splash Screen Prompt

Create a cute kids app splash screen for "MiniGenius" with a smiling cartoon brain mascot, sky-blue gradient background, playful stars, and rounded shapes. Minimal, bright, child-friendly design.

Home Screen Prompt

Generate a playful home screen for a kids brain-training app with 6 rounded colorful game icons in a 2x3 grid, soft shadows, bright colors, and a friendly header logo. Background: gradient blue.

Game Select Prompt

Design a level-select screen for a kids game: 10 circular levels, locked levels greyed out, unlocked levels colorful with stars. Big yellow Start button. Rounded shapes, child-friendly UI.

Gameplay Prompt (Memory Cards)

Create a memory card mini-game screen for kids: 3x3 grid of flip cards, soft pastel colors, rounded edges, simple icons, timer at the top, and playful animations.

Sticker Pack Prompt

Generate a set of cute cartoon brain stickers with thick outlines, bright pastel colors, expressive faces: Happy Brain, Thinking Brain, Winner Brain, Star Badge, Trophy Badge.

11. Final Notes

- This document is ready for UI production
 - Screens can now be generated or drawn
 - Architecture ready for Flutter implementation
 - All prompts can be pasted directly into image-generating AI tools
-
